

## Executive Summary

Executive technology leader with 25+ years of experience driving enterprise digital transformation, cloud modernization, cybersecurity, and post-M&A integration across regulated and high-growth environments. He leverages deep technical expertise and emerging technologies, including AI and ML automation, to enable scalable growth and operational excellence through modern IT operating models, cost optimization, and scalable platforms. A trusted advisor to the C-suite and board, he builds high-performing teams, bridges business and technology, and is known for stabilizing complex environments, scaling platforms, and preparing organizations for growth or exit.

## Core Competencies

### Executive-Leadership & Digital Transformation

- Executive leader driving enterprise digital transformation and culture change
- Strategic, hands-on leader focused on execution and measurable outcomes
- Builder of high-performing, cross-functional global teams aligned to business and technology strategy

### Cloud, Infrastructure & IT Modernization

- Deep expertise in cloud and hybrid architecture, migrations, and operations (AWS, Azure)
- Led large-scale infrastructure modernization improving scalability, resilience, and cost efficiency
- Data-driven technology leader leveraging analytics, automation, and emerging Artificial Intelligence (AI) and Machine Learning (ML)

### Cybersecurity, Risk & Compliance

- Led cybersecurity, privacy, and compliance (HITRUST, HIPAA, SOC 2, Zero Trust)
- Led audit readiness, risk management, and security governance
- Oversaw SOC operations, vulnerability management, and security awareness

### Mergers & Acquisitions

- Led technology due-diligence & integration strategy for **9 acquisitions**
- Executed rapid post-merger integration and systems consolidation
- Drove change management to achieve cost synergies and operational efficiency

### Operational Excellence & Financial Management

- Optimized operations through process redesign, automation, and consolidation
- Designed and operated highly available platforms achieving **99.999% uptime**
- Managed multi-million-dollar IT budgets, enterprise vendors, and third-party risk

### Enterprise Technology & Network Architecture

- Enterprise Business Continuity & Disaster Recovery (BCDR) across environments
- Broad technical depth across systems, storage, virtualization, and operations
- Deployed and scaled secure voice and data networks

## Executive Experience

 **Job Title1**  
 Company1  
 New York, NY  
 2023 - Present

- Leadership of Systems, Storage, Network, Development, and Data Strategy teams
- Team size: 25-35 (100% employee)
- \$3.5M budget under management

### Company description

- Delivered a next-generation, AI-powered Electronic Health Record (EHR) system leveraging Microsoft Co-Pilot, enabling real-time clinical decision support and documentation automation; **reduced provider charting time by 40%** and significantly improved data accuracy across clinical workflows
- Designed and implemented a machine learning-driven NMS solution that analyzed historical performance data to proactively predict and prevent infrastructure failures, **reducing downtime by 50% and increasing NPS scores** by streamlining operations through targeted proactive alerts
- Fostered a goal-oriented, lead-by-example culture that **boosted productivity by 50% and reduced turnover** through trust, mentorship, recognition, and career-pathing initiatives

 **Job Title2**  
 Company2  
 New York, NY  
 2021 - 2023

- Leadership of Network, Systems, and Service Desk teams
- Team size: 20-25 (100% employee)
- \$2.1M budget under management
- Two acquisitions, Exit via Acquisition

### Company Description

- Implemented/consolidated multiple Tier IV datacenters across geographically dispersed sites, implementing a unified architecture and operation model that **reduced operational costs by 30%**, improved redundancy, and enabled scalable infrastructure growth across the enterprise
- Led cross-functional steering committee to consolidate fragmented and unreliable telecommunications systems by standardizing on Microsoft Teams Voice, enabling a unified enterprise communication platform. This resulted in a **70% reduction in telecom spend and improved cross-site reliability, interoperability, and coverage across the organization**
- Led post-acquisition tech debt consolidation across multiple business units by standardizing and stabilizing critical legacy applications; **reduced unplanned downtime by 95%**, boosted order fulfillment performance and **positioned IT for scalable integration and future transformation**

 **Job Title3**  
 Company3  
 Washington DC  
 2017 - 2021

- Leadership of NOC, Network, Systems, Field Operations, and Development teams
- Team size: 50-65 (80% employee, 20% contractor)
- \$6M budget under management
- Three acquisitions, Exit via IPO

### Company Description

- Designed and led the end-to-end implementation of a 24x7x365 SaaS platform supporting nationwide acute care services that enabled rapid growth and directly supported the company's **200% revenue growth and successful IPO**
- Led the design, implementation, and validation of enterprise-wide business continuity and disaster recovery plans to meet regulatory compliance (HIPAA, HITRUST) and enhance operational resilience, resulting in a **40% improvement in RTO/RPO metrics** and sustaining **99.999% system uptime** across critical infrastructure

# First Last

CTO | CIO | Technology-Focused COO

Anytown, USA  
+1 212 555 1212  
email@domain.com  
LinkedIn Profile

- Played a key role in achieving HITRUST compliance by assessing infrastructure gaps, implementing security controls, and leading cross-functional remediation efforts, resulting in annual certification with **zero critical findings and improved audit readiness** across the organization

 **Job Title4**  
 Company4  
 Miami, FL  
 2015 - 2017

- Leadership of NOC, Operations, and Order Entry teams
- Team size: 65-70 (50% employee, 50% contractor)
- \$5.5M budget under management

#### Company description

- Led executive steering committee through \$2 MM cloud transformation to AWS and Azure, aligning finance, operations, and security teams to ensure enterprise buy-in and adoption. The result **reduced support costs by 30% and improved system scalability and disaster recovery capabilities**
- Led a company-wide SOP transformation and automation initiative that standardized order provisioning workflows; **reduced provisioning times by 30%** and **cut post-installation troubleshooting by 50%** through process reengineering, system integration, and targeted automation

 **Job Title5**  
 Company5  
 Chicago, IL  
 2012 - 2015

- Leadership of Engineering, Development, and Support teams
- Team size: 15-25 (90% employee, 10% contractor)
- Exit via Series A funding

#### Company description

- Product visionary leading the development of a scalable hybrid VoIP/PBX platform, aligning go-to-market strategy, which became the cornerstone of the company's **40% YoY revenue growth** strategy and directly supported a **\$25M Series A funding round**
- Led a strategic cost consolidation initiative to rehome over 2,000 customer and backhaul circuits to optimized Points Of Presence (PoPs); achieved complete operational transparency and minimized customer impact while delivering **\$275K in annual savings** and improving network efficiency
- Redesigned legacy billing systems by implementing automated provisioning and activation workflows, enabling real-time billing and reducing manual errors; uncovered and **corrected \$350K in unbilled revenue** through audit and system modernization

## Recent Projects

2025 - Implemented Zero Trust  
2025 - Datacenter compute & storage upgrade  
2025 - Microsoft license automation  
2025 - HITRUST Re-Certification achieved  
2024 - Teams Voice automated call scheduler  
2024 - Datacenter Networking modernization/refresh  
2024 - HITRUST Re-Certification achieved  
2023 - Custom NMS Implementation  
2023 - Custom CRM/OSS/BSS Implementation  
2022 - Teams Voice real-time ACD stats  
2022 - AWS data warehouse implementation  
2022 - Real-time KPI dashboard development  
2021 - Geo diverse datacenter build+migration

2021 - HITRUST Re-Certification achieved  
2020 - Migrated from DUO to EntraID  
2020 - Developed IoT appliance + OSS/BSS ecosystem  
2020 - Initial HITRUST Certification achieved  
2019 - Developed PTZ control over WebRTC  
2019 - BC/DR validation/testing  
2019 - Multi-tenant ACD screen pop solution  
2018 - Call Manager PBX migration  
2017 - Automation of legacy telemetry systems  
2016 - 30k customer VOIP migration  
2015 - Implemented Genband SBC HA pair  
2015 - Five datacenter build+migration

## Technical Appendix

### Systems & Infrastructure

- Cloud: AWS, Azure, Google Workspace, Microsoft 365
- Virtualization: Hyper-V, VMware, Proxmox, KVM
- OS: Linux (all), Windows Server (all)
- Storage: Dell EMC, NetApp, NFS, iSCSI, Fibre Channel
- IAM: Active Directory, LDAP, EntraID, Okta, DUO
- IoT: End-to-end platform development

- Routing: Cisco (CatOS, IOS, Nx OS, ACI)
- Switching: Cisco, Meraki, Fortinet, Ubiquiti
- Firewalls: FortiGate, Palo Alto, Cisco ASA, SonicWall, WatchGuard
- Protocols: BGP, OSPF, VPN (IPSec, GRE, WireGuard, OpenVPN), SD-WAN
- Telecom: SIP, RTP/SRTP, T1, DS3, Ethernet, Microwave, Satellite
- PBX: Teams Voice, Asterisk, Broadsoft, Nortel, Avaya, Polycom, Call Manager

### Network & Telecom

### Development & Business Intelligence

- Platforms: Azure DevOps, Visual Studio, Git, LAMP/WAMP
- Languages: Python, PHP, .NET, JavaScript, C#, REST APIs
- ETL: AWS DMS, SSIS
- Databases: MS SQL, MySQL/Maria, PostgreSQL, InterSystems IRIS
- BI: Microsoft Clarity, Google Analytics, SSRS, RedShift
- Visualization: Power BI/Fabric, Tableau, Sisense

- CRM: Dynamics, Salesforce, VersaSRS, HubSpot, custom OSS/BSS
- Cybersecurity: Qualys, Tenable, Taegis, Endpoint Central, Zero Trust
- Web Application Firewall (WAF): CloudFlare, Imperva
- NMS: PRTG, Solarwinds, Zabbix, Nagios, SNMP, API, SSH
- Miscellaneous: InterSystems HealthShare

### Applications

## Additional Information

- Travel: Domestic & International, up to 100%
- Background: Clear, able to obtain clearance as needed
- Education: BS Computer Science & MBA
